

# FRAME NETS

THE FUTURE OF PLAY STARTS HERE

## 3D PLAY EXPERIENCE

Bring a new climb to your next playground project with Dynamo Frame Nets!

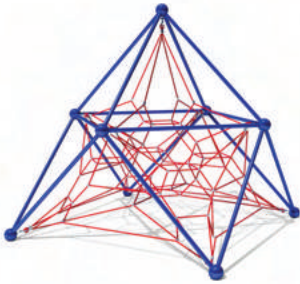

This game helps children develop their navigation skills while also increasing their agility, fitness through play.

Designed for  
a 3-dimensional  
play experience,

# FRAME NETS

let children climb  
on, up, through!

With the addition of angled  
nets and accessories like  
**slides, panels or pendulum  
steppers**, this game brings  
an added level of challenge  
to the playground.

# EVERYONE CAN PLAY

The versatile designs of our Frame Nets give children with varying levels of mobility the opportunity to participate in play! Adding accessories like coconut rope for additional tactile feedback is a great way to engage children with sensory challenges!

Our future designs  
come into play from  
your imagination.

Our Frame Nets are a great way to bring a dynamic 3-dimensional play experience to your community!
